

Special Session on “Quotient Space Theory Research and Application”

Brief Description

The ‘Quotient Space Theory Research and Application’ of the Fifth International Conference on Rough Set and Knowledge Technology (RSKT2010) invites the submission of original high-quality research papers. The goal of this session is to bring together researchers and practitioners in the field of Quotient Space Theory. Submissions will be in Springer LNCS style. Accepted and registered papers will be included in the Springer LNAI proceeding available at the conference. Extensions of selected papers from the RSKT2010 proceedings will be considered for publication in special issues of some international journals, such as Fundamental Informatics (EI, SCI indexed), International Journal of Computational Intelligence Systems(SCI indexed), etc.

Scope and Topics

Topics of interest include but not limited to:

- ✧ Quotient space theory research
- ✧ Quotient space theory application
- ✧ New applications on quotient space theory
- ✧ Granular computing

Important Dates

Full paper submission due:	May 10, 2010
Paper acceptance/rejection notification:	May 20, 2010
Camera ready submission and registration:	July 6, 2010

Instructions for Authors

Articles should be submitted electronically. PDF format are acceptable and submissions should be according to the instruction for authors (see <http://rskt2010.bjtu.edu.cn/paper.htm>). Please specify that the paper is for the Knowledge Technology meet Quotient Space Theory Research and Application session, and send an electronic copy of paper in PDF format in English to zhangyp@mail.hf.ah.cn. Same electronic copy must also be submitted online at EasyChair Login Page for RSKT 2010 (<https://www.easychair.org/login.cgi?a=a03a9c904a6d;iid=19053>).
